

September 2, 2022

Dear King Members, Friends, and Family:

As we approach the Labor Day holiday weekend when we all gather with friends and family, please remember that COVID-19 transmission continues to be prevalent across our state and in our local community. We ask that you do your part to exhibit personal responsibility to limit your potential exposure to the virus. We are grateful for everyone who helps keep our Home safe for all our members and employees.

Since we last updated you, we had 1 employee test positive for COVID-19. Accounting for all recent recoveries, currently we have 9 cases of COVID-19 on campus (1 member, 8 employees).

If you are feeling sick, please get tested. Whether you have COVID-19, the flu, or something else, a proper diagnosis gets you treatment faster and protects everyone around you. Vaccinations and booster shots are readily available at local pharmacies and medical offices near where you live. If you are not feeling well, do not visit our campus until you have fully recovered.

The CDC continues to recommend everyone ages 6 months and older stay current with their vaccines, which includes everyone 5 years and older getting boosters, if eligible, for the best protection against COVID-19.

Thank you for your continued commitment and support of our Home.

Sincerely,

A handwritten signature in cursive script that reads "Diane Lynch".

Diane Lynch, LNHA, MBA
Homes Division Administrator
